

EURIPHI Health & Social Care Regions Network

Results achieved & Sustainability plan

8 May 2020

Webinar

Modernising the public sector in the EU is a key priority to keep the pace with today's societal challenges.

This is particularly true in the health sector, where improving efficiency and providing high quality sustainable health care in due time is crucial to cope with an ageing population, chronic diseases, co-morbidities, antimicrobial resistance, and many other issues.

To **address such challenges**, we should foster innovation and introduce innovative solutions, having citizens in good health and incorporating 'value' and 'economic value' considerations in investment decisions in healthcare. **Value-Based Procurement of innovative solutions** is becoming an unexpected driver to achieve these health systems goals.

Within this context the Horizon 2020 EU funded Coordinating and Supporting Action **EURIPHI - European wide Innovation Procurement in Health and Care** - fosters acceleration in a change in procurement practices leading to a value-based approach resulting in most economic advantageous tendering.

The time to transform care delivery by innovation procurement is now, responding to the regions defined needs of health systems throughout Europe.

The EURIPHI Health & Social Care Regions Network is taking part in this revolution by exchanging information on areas of common interest to address unmet needs and by creating cooperation opportunities for cross-border value-based innovation procurement.

The webinar is aimed at presenting the results achieved in the framework of the EURIPHI project with the contribution of the EURIPHI Health & Social Care Regions Network as well as a plan ensuring its sustainability in the future.

We look forward to welcome you. Please confirm your interest and participation to i.notarangelo@medtecheurope.org and you will receive more information on how to join the webinar.

Agenda

10:00 – 10:05 Welcome and introduction

- Yves Verboven – Coordinator of EURIPHI and Director of Market Access and Economic Policies at MedTech Europe

10:05 – 10:45 EURIPHI Health & Social Care Regions Network: learning and results dissemination

- Isabella Notarangelo – MedTech Europe

Discussion with participants

10:45 – 11:15 EURIPHI Health & Social Care Regions Network Sustainability Plan

- Yves Verboven – Coordinator of EURIPHI and Director of Market Access and Economic Policies at MedTech Europe & Valentina Polylas – Director at EUREGHA

Communication tools; policy initiatives (e.g. Expert Panel on Effective Ways of Investing in Health); participation in EU funded projects and dialogue platforms.

11:15 – 11:45 Q&A and Live-poll

11:45 – 12:00 Closing remarks

- Yves Verboven – Coordinator of EURIPHI and Director of Market Access and Economic Policies at MedTech Europe & Valentina Polylas – Director at EUREGHA
